

ENVIRONMENTAL POLICY

Lalan Group of Companies (Lalan Rubbers (Pvt) Ltd and Central Rubber (Pvt) Ltd) is committed to preservation of the environment where we shall strive to adhere to this policy in all aspects, all customer requirements, including customer-specific codes of conducts, Regulatory compliance, Pollution prevention at all stages of our business operations.

The key points of its strategy to achieve this are:

- Be committed to continual improvement through reduction and preservation of wastes, pollution of air, water, land contamination and consumption of natural resources.
- Minimize waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Source and promote a product range to minimize the environmental impact of both production and distribution.
- Minimizing the use of energy generated by fossil fuels in order to reduce the company's impact on climate change.
- Improving the energy efficiency of lighting, production equipment, site vehicles and other uses of energy in facility operations.
- Reducing the output of greenhouse gases from the company's supply chain.
- Protection of the environment and the health of workers and the community by minimizing and controlling air emissions, including greenhouse gases.
- Pollution is contamination of soil, water, and the atmosphere due to releases or discharge of harmful substances. Therefore we're committed to prevent and minimize pollution as much as possible in order to protect workers and the environment.
- Protect the environment and the local community through responsible use of water resources.
- The company will use as much renewable energy as feasible, and continuously increase the amount of energy used that is derived from renewable sources.
- Preventing and minimizing impact on ecosystems, biodiversity, and the environment of the natural systems from which the company obtains, sources, and produces raw materials.
- Integration of biodiversity conservation into the company's environmental and social decision-making.
- Strive to comply with all environmental legislations, regulations and other requirements relevant to our activities, products and services.
- Provide immediate and proactive response to any accidental environmental issue related incidents, and pursue every effort to mitigate impact to the environment, the community, and the health and safety of workers and other community members.
- Promote environmental awareness amongst our employees through continuous education and training.
- Communicate this policy with our employees and policy shall be reviewed annually.
- Ensure that this policy is made available to the interested parties when and where necessary.
